

# Rupee moves in narrow range on first day of CY24

## RUPEE SPOT

(₹ vs \$ inverted scale)

Source: Bloomberg

On the first day of calendar year 2024, the rupee showed a lateral trading pattern, moving within a narrow range of 83.15 to 83.24 against the dollar. The Indian unit settled at 83.24 against the dollar on Monday. It started the day on a positive note with a gain of 3 paise against the greenback, but depreciated during the day because of profit booking by traders around the level of 83.20 per dollar.
