

KCP delivers Gaganyaan crew module to Isro

Diversified business group KCP Ltd has handed over the integrated air drop test - crew module structure to Isro for its ambitious Gaganyaan mission, the company said on Sunday. The Heavy Engineering Unit of the Chennai-based KCP Ltd received an order from the Bengaluru-headquartered Isro for the fabrication of two IADT Crew Module structures meant for the demonstration of its technology preparedness levels before the maiden human space flight programme. **PTI**
