

Imports from China for at least 25 product groups rose in FY23

India's imports from China across at least 25 major commodity groups such as con-

sumer electronics, auto components, and iron and steel products rose in fiscal 2023, the government told parliament on Wednesday. The statement, which listed Chinese imports in a total of 31 commodity groups, comes amid concerted efforts to reduce its trade deficit with China since border tensions flared in 2020. Imports of electronics from China grew 14 per cent year-on-year in fiscal 2023, and imports of organic chemicals imports rose 9 per cent.
