

JLR, Tata Tech join hands for digital transformation

Aroosa Ahmed

Mumbai

Luxury carmaker Jaguar Land Rover (JLR) will partner with Tata Technologies to accelerate the digital transformation of its industrial strategy.

The company said the first phase will include UK core production facilities with solutions subsequently deployed to other global locations.

ACHIEVING TARGETS

Tata Technologies will deliver end-to-end integrated enterprise resource planning (ERP) to transform the company's manufacturing, logistics, supply chain, finance and purchasing modules by bringing data and knowledge from multiple departments into one single source.

"The partnership will allow

us to accelerate the transformation of our core ERP infrastructure... It also demonstrates the power of being part of the Tata Group to help us achieve targets for our supply chain and wider industrial operations," said Barbara Bergmeier, Executive Director of Industrial Operations, JLR.

Tata Technologies will implement cloud-based ERP software solutions that will revolutionise operations for employees and suppliers, delivering advanced interfaces, increased efficiency and enhanced collaboration, the company said.

"We believe this collaboration will help JLR build innovative and sustainable vehicles and achieve faster time to market using new-age digital technologies," said Warren Harris, MD and CEO, Tata Technologies.
