

Making strides in ease of doing biz: DPIIT secy

It is now possible to start a business in one day in India, matching the world's best scorer New Zealand on this front, the Department for Promotion of Industry and Internal Trade (DPIIT) Secretary Anurag Jain said on Tuesday. Several other steps are underway on further improving ease of doing business in India, including on the labour laws front, he said. All labour laws have been consolidated into four codes, which have been passed by Parliament and the government is in the process of their final implementation, he said. Jain was speaking at a breakfast session organised by industry chamber CII and consultancy giant EY.
