

# EV policy to help launch premium SUVs: VinFast

Vietnam's electric car maker VinFast Auto on Monday said India's new electric vehicle policy that provides import duty concessions for companies setting up manufacturing units in the country with a minimum investment of \$500 million will allow it to introduce a wide variety of eco-friendly premium-quality SUVs at inclusive prices.

The Indian government's new electric vehicle (EV) scheme aims to drive large investments in manufacturing, create competencies and upskilling, set up a robust supply chain and offer consumers world-class, zero-tailpipe emission vehicles, VinFast India CEO Pham Sanh Chau said in a statement.
