**GLOBAL EV GIANT** Tesla has started accepting bookings for all states and UTs from Tuesday onwards. The announcement was made on Tesla India's official X handle.

"Now everyone in India can order directly on our website," Tesla India posted on Tuesday. The list on the official website now allows booking from 34 locations (states and UTs).

The Elon Musk-led company opened its first showroom in the country in Mumbai last week.

Initially, bookings were available for select cities only. As per the update on Tuesday, deliveries for Mumbai, Delhi, Gurugram and Pune will still be prioritised. Deliveries are expected to begin in the third quarter of this year, but no specific dates have yet been

announced.

The car can be booked online with a non-refundable amount of ₹22,220, while an amount of ₹300,000 needs to be paid in the next seven days.

Customers from different states can book the car on the Tesla India website and customise it as per their requirement. The final prices for different states may vary due to the local applicable taxes and incentives.

For India, Tesla has launched two variants of its Model Y EV. The Rear-Wheel Drive model has been priced at ₹59.89 lakhs (ex-showroom) while the Long Range Rear-Wheel Drive will cost ₹67.89 lakhs.
